

YOUR SENSORY-SAFE TRAVEL GUIDE

SPECIALIZED TRAVEL PLANNING ROOTED IN LIVED
EXPERIENCE & CERTIFIED EXPERTISE

PRESENTED BY:
JASON REEVES
ALPINE TIDE TRAVEL

Before You Go

Pre-trip planning to reduce surprises and build confidence.

Research & Scheduling

- ☐ Research destination sensory environment
 - Crowds, climate, noise levels
- ☐ Build a visual schedule with times & transitions
- ☐ Identify quiet hours at key attractions

Noise & Lighting

- ☐ Check venue noise levels in advance
 - Reviews, videos, or call ahead
- ☐ Confirm lighting type at accommodation
 - Fluorescent vs. natural light

Transport & Food

- ☐ Plan transport with lowest sensory load
 - Direct flights, off-peak trains
- ☐ Research food options for dietary needs
 - Familiar textures & flavors available

Room Layout

- ☐ Request room away from elevators & ice machines
- ☐ Ask about bedding materials & blackout curtains

Questions / Notes

Pack & Carry

A sensory-safe carry-on keeps regulation tools within reach.

Sound & Light

- ☐ Noise-cancelling headphones
 - Charged + backup cable
- ☐ Earplugs (loop or foam)
- ☐ Sunglasses or tinted lenses

Regulation & Comfort

- ☐ Fidget tools (2-3 preferred items)
- ☐ Comfort item or weighted lap pad
- ☐ Familiar snacks (safe textures & flavors)

Essentials

- ☐ Medication + copy of prescriptions
- ☐ Portable charger & cables
- ☐ Backup change of clothes in carry-on
- ☐ Visual schedule printout or device

Questions / Notes

Finding Quiet Places

What to look for when scouting calm spaces at each stop.

Airports

- ☐ Locate quiet rooms or sensory spaces
- ☐ Find gates with low foot traffic
- ☐ Note nearest restrooms & water fountains

Hotels

- ☐ Check for natural light & window control
- ☐ Identify seating areas away from lobbies
- ☐ Confirm proximity to exits & stairs

Restaurants

- ☐ Choose off-peak dining times
- ☐ Request corner or booth seating
 - Less visual & auditory input
- ☐ Check outdoor seating availability

Attractions

- ☐ Ask about low-sensory hours or passes
- ☐ Locate rest areas & quiet zones on map
- ☐ Identify nearest exit from each area

Questions / Notes

Peaceful Areas & Break Plan

Identify calm zones and schedule regular sensory breaks.

Calm Spaces to Look For

- ☐ Airport lounges & prayer/meditation rooms
- ☐ Hotel quiet corners, gardens, or pools (off-peak)
- ☐ Outdoor parks & green spaces nearby
- ☐ Dedicated sensory rooms (if available)
- ☐ Libraries, bookshops, or museum quiet galleries

Break Planning

- ☐ Schedule a break every 60-90 minutes
- ☐ Set a gentle timer or visual cue
- ☐ Use breaks for deep breathing or movement
- ☐ Have a 'break bag' ready with regulation tools
- ☐ Communicate break needs to travel companions

Questions / Notes
